Rockville, MD 20852

We are an organization representing about two thousand families. We urge you to reject over the counter distribution of the morning-after pill. This powerful drug affects the lining of the uterus and can cause early abortions. Women are being misled into thinking that the morning-after pill is a contraceptive when in truth it is basically an abortifacient.

Do not recommend that this drug be made available over the counter, as it contributes to the exploitation of women and damages them physically, emotionally and spiritually.

Very truly yours

Virginia E. Sutton

(Education Chairman)
